Data & Visualization: SQL, Python (Pandas, NumPy, scikit-learn, PySpark), R, Tableau, Power BI, Google Sheets, Excel (advanced formulas, pivot tables, macros/VBA)

AI & Operations: Claude, Gemini, ChatGPT; AI-assisted workflow improvement, document extraction, dashboard development, stakeholder coordination, requirements gathering, UAT

EXPERIENCE

Sunlight Development *New York, NY*

Marketing Analyst *Jan 2025 - Present*

- Rebuilt and implemented a **Google Sheets sales tracking system across 6 projects and nearly 1,000 units**, using Claude and Gemini to standardize deal pipelines and add a dynamic dashboard of unit counts and total values by project and sales status.
- Analyze broker and sales team updates to monitor sales performance and inform marketing strategies; conduct competitive research on **unit mix, pricing, amenities, inventory, and sales progress** to identify differentiators and refine messaging for target buyers.
- Use **AI tools and agents** to automate recurring marketing monitoring and support ongoing competitive research.
- Coordinate recurring cross-functional meetings and work with engineering, legal, and project teams to compile **condominium offering plans and amendments**, consolidating inputs and supporting documentation.
- Support **monthly construction draw requests and purchase order tracking** with project and accounting teams; use AI to extract invoice and proposal details, consolidate costs and scope, and generate recurring lien waiver amount wording.

Kuaishou Technology *Beijing, China*

Industry Analyst Intern - Live-Commerce & Merchant Platform *Mar - Jun 2023*

- Produced **9 weekly industry performance reports** in Tableau and Excel analyzing partner performance, pricing, and live-streaming commerce trends for **65+ automotive brands**, driving 20% GMV growth (~$5M+ incremental revenue).
- Wrangled and joined large multi-source platform datasets to build the factbase behind merchant tooling and incentive recommendations, contributing to **50%+ GMV growth** for 65+ EV brands during the flagship "618" shopping event.
- Automated an **XGBoost merchant-rating model in PySpark/Python (90%+ accuracy)**, cutting the reporting workflow 50% (4 hrs to 2 hrs).

Deloitte *Beijing, China*

Business Analyst Intern *Dec 2022 - Feb 2023*

- Analyzed web portal and marketing system data in **SQL** for a top-tier retail client and authored **4 reports** that directed product fixes and rollout decisions.
- Designed and executed **50+ UAT scenarios**, contributing to a 20% reduction in reported issues and an estimated 15% lift in user retention.

Accenture *Beijing, China*

Project Data Associate Intern *May - Aug 2022*

- Built an **ETL pipeline processing 1.5M+ records (SQL Server)**, eliminating ~10 hrs/week of manual work; built **4+ Tableau dashboards** and led a team of 6 presenting findings to project leadership.
